PROFESSIONAL SUMMARY

Final-year Computer Science student and aspiring Full Stack Developer with hands-on experience in JAVA Full Stack and the MERN Stack. Skilled in building and deploying production-grade web applications and RESTful APIs, with a strong foundation in data structures, object-oriented programming, and database design.

Passionate about writing clean, scalable code and learning modern full-stack technologies.

EDUCATION

Smt.B.Seetha Polytechnic

Diploma in Computer Engineering - 77.35%

June 2021 – April 2024

Bhimavaram, Andhra Pradesh

Swarnandhra College of Engineering and Technology

Bachelor of Technology in Computer Science & Engineering - 7.47 CGPA

July 2024 - July 2027

Narasapuram, Andhra Pradesh

EXPERIENCE

WEB DEVELOPER INTERN internship

June 2023 – November 2023

R.K.InfoSystems

Hyderabad, Telangana

- Built a QR-based Dine-in Reservation app using ReactJS, Java Servlets, and MySQL in a 5-member Agile team.
- Designed and implemented RESTful API endpoints for seamless client-server communication, applying Java Full Stack practices.
- Debugged and optimized application functionality with senior developers, strengthening code quality and cross-functional collaboration.

SLG Milk Dairies Billing System Freelance

June 2026

SLG Milk Dairies

East Godavari, Andhra Pradesh

- Independently architected and deployed a production Billing & E-commerce platform (React.js, Express.js, Node.js, MongoDB) processing 150–200 invoices/day across 80+ SKUs.
- Automated invoice generation via WhatsApp Cloud API integration, reducing manual effort and speeding up daily billing for accountants.
- Deployed and maintained production infrastructure on an Ubuntu VPS with Nginx & PM2, owning the full SDLC as a solo developer from design to client handover.

TECHNICAL AND SOFT SKILLS

Programming Languages: C, Java, Python

Web Development: HTML, CSS, Bootstrap, JavaScript, RESTful API Design, MVC Architecture

Databases: MySQL, MongoDB, Database Design & Normalization

Tools & Practices: Git, GitHub, VS Code, Eclipse, Agile/SDLC, Debugging & Testing, Nginx, PM2, Linux (Ubuntu VPS)

Data Analysis: Data Cleaning (Pandas), Data Visualization (Matplotlib, Seaborn)

Soft Skills: Problem-solving, ownership, cross-functional collaboration, adaptability, growth mindset

PROJECTS

ToDo Application - Backend | *Node.js, Express.js, Mongodb*

March 2025 - May 2025

- Built a RESTful backend with Node.js, Express.js, and MongoDB, implementing full CRUD operations for user and task resources.
- Designed normalized MongoDB schemas and secured routes with middleware-based authentication.

ToDo Application - Frontend | *React.js, Bootstrap CSS, React toastify*

May 2025 - June 2025

- Built a responsive, component-based React.js UI for task management, ensuring consistent UX across devices.
- Integrated React Toastify for real-time in-app notifications on task actions, improving interactivity.

StocksApp | *React.js, Bootstrap CSS, Finnhub API*

July 2025 - August 2025

- Built a responsive stock market dashboard in React.js with clean navigation and interactive UI components.
- Integrated the Finnhub REST API for real-time company profiles and stock quotes, applying asynchronous data handling.

CERTIFICATES

Web Dev Intern – R.K.InfoSystems | Python 101 for Data Science | Data Visualization Using Python | Data Analysis with Python | AWS Academy – Data Engineering
